Gardening Basics Series

Are you ready to dig into the wonderful world of gardening? Get your green thumbs ready because our Gardening Basics Series is back & blooming with opportunities to cultivate your passion for plants! This year's series will cover:

- APRIL 06 Rooted Beginnings:** Why gardening is important, and a bit of urban garden history
- APRIL 13 Planting the Seed:** Planning a garden that will work for you and your space this season.
- APRIL 20 SoilSHOP Workshop:** Bring soil from your garden or play area in your yard to be screened for lead. MDHHS staff will be available to explain ways you can limit your exposure to lead in soil
- APRIL 27 Sprouting Success:** Dig in with soil prep, seeding, transplanting & more!
- MAY 4TH From Waste to Wealth:** Dig in with soil prep, seeding, transplanting & more!
- MAY 11 Grow & Gather:** Get ready to grow on your own with garden maintenance, including fertilizing, weed control, handling pests & a hands-on transplanting workshop
